## Energy Efficiency Rebate Program

### **ELECTRIC WATER HEATERS**

#### **Electric Water Heaters Gas Replacement or New Construction      Rebate of \$150.00**

Member purchases a new electric water heater at a dealer of their choice, with an efficiency rating of .90 or greater, and 40 gallon or larger. Must be a new installation or gas conversion.

#### **Electric Water Heaters Electric Replacement**

**Rebate of \$100.00**

Member purchases a new electric water heater at a dealer of their choice, with an efficiency rating of .90 or greater, and 40 gallon or larger.

### **GROUND SOURCE HEAT PUMP**

**Rebate of \$500.00/ton**

Member must install a ground source heat pump system capable of heating and cooling the entire area of the home. Financing may be available. Member is also eligible for the Air Conditioning rebate on the EER rating of the GSHP.

### **AIR CONDITIONING OF RESIDENCE OR BUSINESS**

#### **Central Air Conditioner or Air to Air Heat Pump**

Chariton Valley will offer \$100 for each point of efficiency above 14.5 SEER with a minimum efficiency requirement of 15.0 SEER. Fractional SEER shall be a portion thereof.

#### **Room Air Conditioner**

Chariton Valley will offer \$5.00 for each tenth of a point of efficiency above 10.6 EER

### **PROGRAM CRITERIA**

1. Must be a member of Chariton Valley Electric Cooperative Inc.
2. As per ARI or GAMA certification.
3. May be new construction or retro-fit to previous construction.
4. Equipment must be installed on CVEC lines.
5. **A receipt of purchase must accompany the Energy Efficiency Rebate Application.**

### **ENERGY AUDITS**

Chariton Valley Electric offers the Home Energy Saver Internet-based tool for calculating energy use and savings opportunities based on a detailed description of the home provided by the user. In addition to calculating energy use on-line, users can access an array of "how-to" resources through a host of Internet links. Visit our website at the address below.
