

Kill A Watt

Ever wonder how much electricity your appliances are really using? Now you can find out watts "killing" your electric bill with the Kill A Watt, available at Chariton Valley Electric.

The Kill A Watt connects into your appliances and assesses how efficient they are. A large LCD display counts consumption by the Kilowatt-hour just like we would. You can figure out your electrical expenses by the hour, day, week, month, even an entire year. Monitor the quality of your power by displaying Voltage, Line Frequency, and Power Factor as well.

The Kill A Watt is for standard 115 VAC appliances only, 15 Amps maximum, 125 VAC maximum.

Features

- LCD Display
- Cumulative Kilowatt-Hour Monitor
- Forecasts Your Costs
- Also displays Volts, Amps, Watts, Hz, VA
- 0.2% Accuracy
